

Dr. Williams,

This is to inform you in advance that inquiries are being instituted to consider legal ramifications for the unfounded and false accusation in the web page from Sunny Hills High School The accolade and shown on a national scale. Legal proceedings may be based on:

Slander, Defamation of Character of all Americans of Japanese ancestry, commonly referred to as Japanese Americans, Violation of my Constitutional Freedom of Speech for removing only my responsive comments from the school website and Violation of the National Racial Discrimination act for specifying our heritage in the the statement "Japanese American citizens were against the construction [of the monument] because they don't want to admit their faults in starting human trafficking during wartime when they brought young Asian women to Japan as sex slaves."

A completely false and libelous statement that was wrongly published on your website that has wrought great harm to the reputation and subjected all Japanese Americans to ridicule, hatred, scorn and contempt by the public. The publication was made in complete disregard of the reputations of those brave U.S. born Japanese Americans who risked their lives and the 258 who died for the freedom of the Republic of Korea. An apology is due.....

The members of the Japanese American Korean War organization, with a roll call of over 6,000 Japanese American Korean War Veterans and I, as Charter President, are furious over this blatant discriminatory statements published in the SHHS The accolade website.

Named in any legal process will be the two Students, Staff of The accolade, Sunny Hills High School, the Fullerton Joint Union High School District and Officers for negligence in allowing such libelous false incriminating comments to go public.

Robert M. Wada
Sgt. USMC, Korea, 1951-1952
